

Συνέχισε να χαράζεις γραμμές  
με τον **ίδιο** τρόπο.

1

Γράψε τους αριθμούς που λείπουν.

2

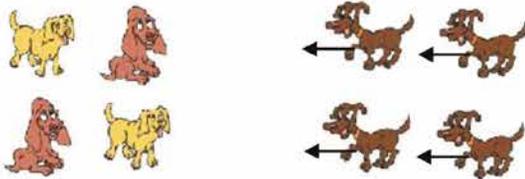

3

Ήταν έξι σκυλάκια  
και έφυγαν τα δύο.

Γράψε την πράξη που ταιριάζει.

.....

Μετά, ήρθαν  
άλλα τέσσερα σκυλάκια.

Γράψε την πράξη που ταιριάζει.

.....

Μετά, έφυγαν  
τα δύο σκυλάκια.

Γράψε την πράξη που ταιριάζει.

.....

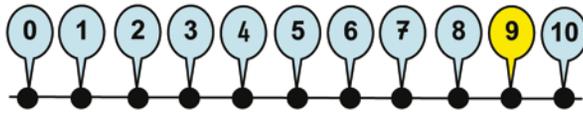

Μετά, ήρθε  
ένα σκυλάκι ακόμα.

Γράψε την πράξη που ταιριάζει.

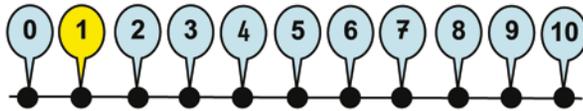

.....

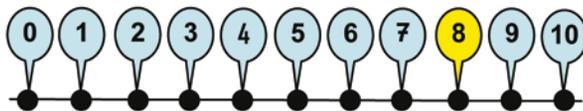

Βρες τους αριθμούς  
που κάνουν μαζί 10.

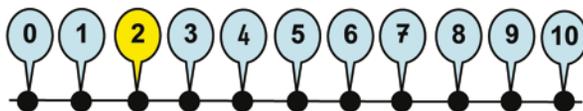

$$9 + 1 = 10$$

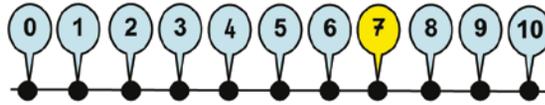

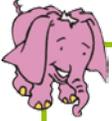

$$1 + \dots = 10$$

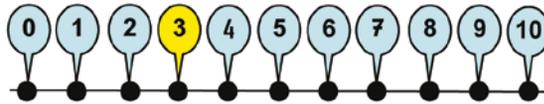

$$8 + \dots = 10$$

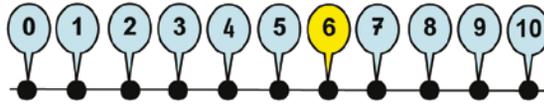

$$2 + \dots = 10$$

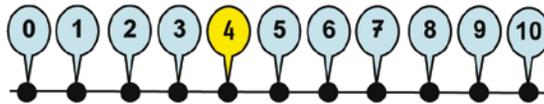

$$7 + \dots = 10$$

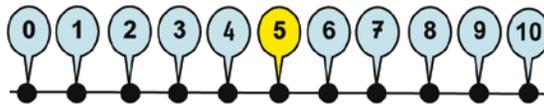

$$3 + \dots = 10$$

$$6 + \dots = 10$$

$$4 + \dots = 10$$

$$5 + \dots = 10$$

Ανεβαίνεις τη σκάλα  
με τους αριθμούς,  
για να κάνεις τις προσθέσεις.  
Ξεκινάς από τον πιο μεγάλο αριθμό.

$$5 + 3 = \dots$$

$$3 + 5 = \dots$$

$$6 + 4 = \dots$$

$$4 + 6 = \dots$$

$$6 + 3 = \dots$$

$$3 + 6 = \dots$$

$$6 + 2 = \dots$$

$$2 + 6 = \dots$$

$$6 + 1 = \dots$$

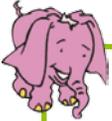

$$1 + 6 = \dots$$

$$8 + 2 = \dots$$

$$2 + 8 = \dots$$

$$8 + 1 = \dots$$

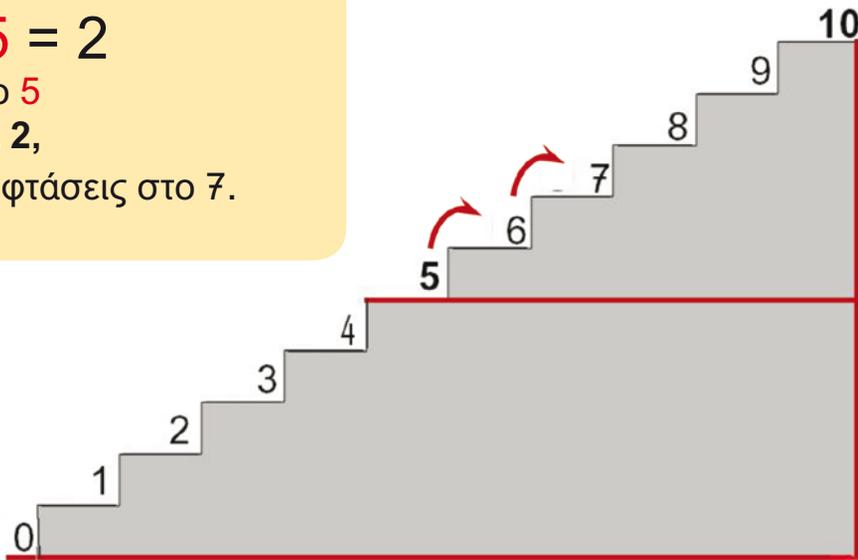

$$1 + 8 = \dots$$

2

$$7 - 5 = 2$$

Από το 5  
ανέβα 2,  
για να φτάσεις στο 7.

Κάνε τις αφαιρέσεις.

$6 - 4 = \dots$

$6 - 5 = \dots$

$7 - 4 = \dots$

$7 - 5 = \dots$

$8 - 6 = \dots$

$10 - 7 = \dots$

$9 - 6 = \dots$

$9 - 7 = \dots$

$8 - 5 = \dots$

$10 - 8 = \dots$

$9 - 5 = \dots$

$9 - 8 = \dots$

Γράψε τις αφαιρέσεις  
που ταιριάζουν στην πρόσθεση.

$$8 + 2 = 10$$

$$10 - 8 = 2$$

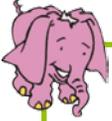

$$10 - 2 = 8$$

$$7 + 3 = 10$$

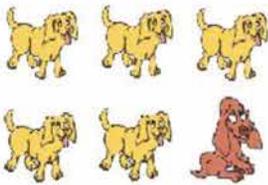

$$10 - \dots = \dots$$

$$10 - \dots = \dots$$

2

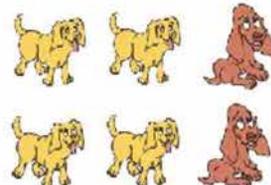

$$5 + 1 = 6$$

$$6 - \dots = \dots$$

$$6 - \dots = \dots$$

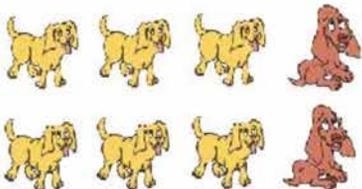

$$4 + 2 = 6$$

$$6 - \dots = \dots$$

$$6 - \dots = \dots$$

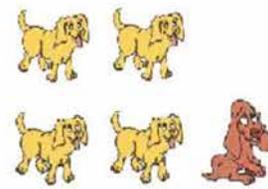

$$6 + 2 = 8$$

$$8 - \dots = \dots$$

$$8 - \dots = \dots$$

$$4 + 1 = 5$$

$$5 - \dots = \dots$$

$$5 - \dots = \dots$$
